Call for Special Sessions

The MACRo 2017 Organizing Committee invites submissions of proposals for Special Session at the 6th International Conference on Recent Achievements in Mechatronics, Automation, Computer Science and Robotics, to be held on 27-28th October 2017, at Sapientia University, in Tîrgu Mureş, Romania.

Special session proposal

Each special session proposal should contain the following information:

- Title of the proposed Session
- Names and affiliation of proposers (including contact information)
- A short introduction (maximum 1 page) stating the importance of the topic and the objectives of the proposed Session
- Tentative list of papers for the session (a minimum number of 5 paper/session)

Proposals should clearly describe the topic of special session.

Papers for approved Special Sessions should be submitted following the same schedule and procedure as for regular papers, and will undergo the same reviewing process as regular papers.

Special session proposers will be part of the reviewing committee.

Proposals will be evaluated by the Organizing Committee based on the relevance of the topic and potential interest to the conference attendees.

Prospective organizers are invited to submit their proposal by email to
